

Northwood Academy Lower School

Summerville, SC

PROJECT: Northwood Academy Lower School

LOCATION: Summerville, SC

ARCHITECT: Red Iron Architects, Charleston, SC

GENERAL CONTRACTOR: Trident Construction, North Charleston, SC

DESCRIPTION

Red Iron Architects designed this 41,000 s.f. Lower School (grades K- 5) to seamlessly tie into the recently completed Upper School. The Upper School was a 57,000 s.f. project also a collaboration of Red Iron Architects and Trident Construction. The Lower School contains 18 classrooms, cafeteria with serving kitchen, gymnasium, media room, art room, music room, and office/administrative space. The Lower School project also included a complete build out of athletic playing fields, practice spaces, and support structures. The framing system used was a metal building system with metal stud exterior walls and a standing seam roof.
